

Enes Demirel

1256 Maple Ln, Elk Grove Village, IL 60007 | enesdemirelus@gmail.com | (847) 960-8176

Education

DePaul University, Chicago, IL,

Expected 2027

Bachelor of Science in Mathematics and Computer Science

GPA: 3.925

Coursework: Calculus I, Calculus II, Discrete Mathematics, Introduction to Computer Science I, Introduction to Computer Science II

Form Kampus High School, GPA: 4.0

Experience

Web Developer, www.theislamicjournal.com

Aug. 2023 – Present

- Responsible for designing, uploading, and editing content on the Wix platform, ensuring a cohesive and engaging user interface for desktop version.
- Managing accurate and timely upload of necessary files and documents, maintaining organized and accessible content for visitors.
- Conducting continuous site monitoring and maintenance to ensure optimal functionality and a seamless user experience.

iOS and Android Developer

Sep. 2022 - Present

- Developing iOS and Android mobile applications, such as a weather forecast app and several interactive games, in my free time using Java, Kotlin, Swift, and SwiftUI.
- Shared my source code on GitHub (github.com/enesdemirelus)

Personal Projects

iOS and Android Application Development

- **WeatherApp** June 2022
Developed a Weather Forecast app for iOS using Swift programming language and OpenWeather API to fetch current weather conditions of the user based on their geographical longitude/latitude information.
- **Remember Tiles** June 2022
Developed a game for iOS using Swift programming language. Game randomly shows 3 tiles in a 3x3 grid and hides them after a few seconds, and asks the user to select the same tiles and saves their high score.

Extracurricular/Volunteer

Keystone Youth Center

Sep. 2022 - Present

- Mentoring middle and high school students, providing guidance on academic, personal, and mental well-being.
- Engage in various activities with students to foster a supportive and interactive environment, contributing to their holistic development.
- Continuously adapt mentoring approaches to cater to evolving needs and dynamics of middle school students, ensuring a positive impact on their school and personal life.

Skills and Languages

- Familiar with Python, Swift and C#.
- Familiar with Premiere Pro.
- Native fluency in Turkish
- Full professional proficiency in English

Interests

Project Euler, making mobile applications, soccer, video games, comics, creating/editing YouTube videos
